

The Ultimate Choice in Safety and Affordability

Kids play hard, which means they fall hard too. Cushion dangerous falls and reduce injuries with PlayFall® rubber safety tiles. Designed with children's play and safety in mind, the PlayFall Safety Surfacing System complies with stringent ASTM requirements for playground fall safety and is available in a variety of thicknesses to match the fall heights of even the most extreme play equipment.

Featuring a porous surface for easy drainage, PlayFall eliminates potential health risks, minimizes maintenance and sustains your investment in safety. Available in a variety of colours, PlayFall provides the ultimate in safety and affordability.

PlayFall Benefits

Minimizes Health Risks

Easier Installation Process

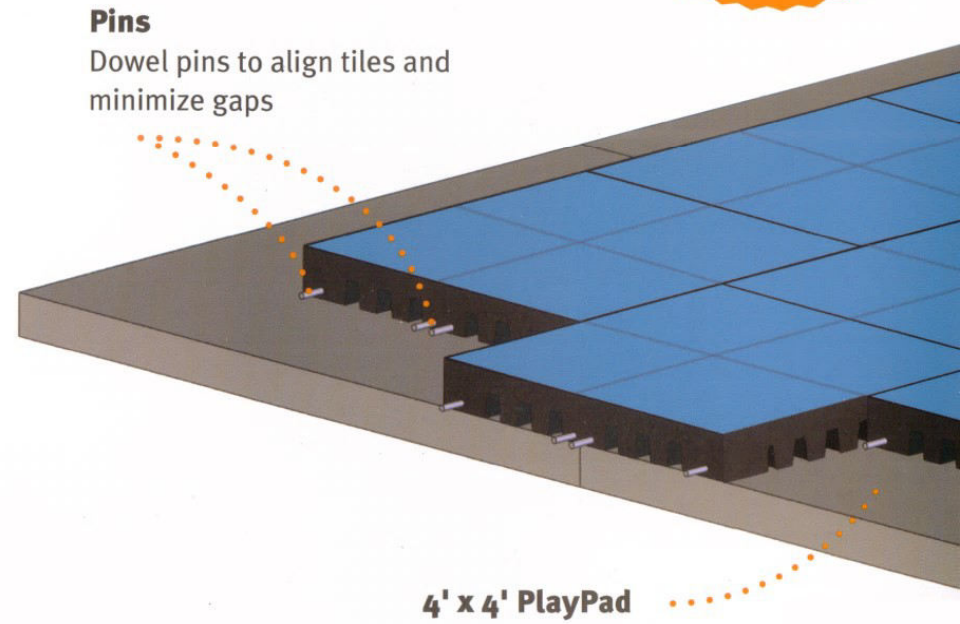

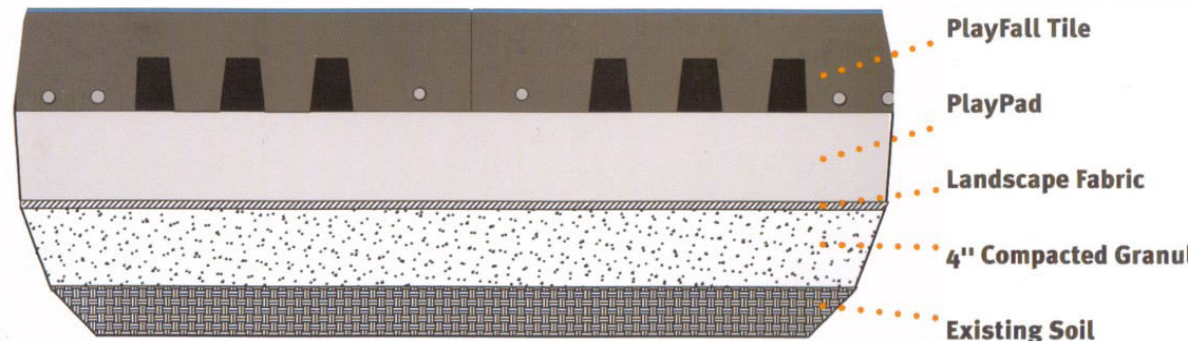

Highly Durable Product

Low Life Cycle Cost

Widest Range of Fall Heights in the Industry

- 4' • 6'
- 8' • 10'
- 12' • 14'
