

EVERLAST®

PERFORMANCE FLOORING

THE TOUGHEST FLOOR IN THE GYM.™

Performance training centers

Weight rooms

Fitness centers

What's New?

We've pumped up the entire line of EVERLAST Performance Flooring to 40 exciting color combinations. Our new line is designed to coordinate with the latest in fitness interior trends, and includes warmer earth tones, bolder blues and a greater selection of grays. What a way to energize your gym!

Made from the highest quality recycled rubber and colorful ColorMill® EPDM flecks, and manufactured by ECORE International™, EVERLAST is available in traditional rolls and tiles, plus our modular UltraTile. It works in any fitness area including weight rooms, cardio areas, performance training centers and spinning rooms - even offices and corridors.

With a rapid response time from just days for standard orders to weeks for custom, EVERLAST Performance Flooring has an expansive service, installation and support network throughout the U.S.A. Contact us today and learn why EVERLAST is the market leader in recycled rubber flooring systems in North America.

Rolls and Tiles

Our roll goods mean easy and fast installation and a virtually seamless appearance. Our 3' x 3' tiles are the ideal choice for smaller areas or for adding splashes of color throughout your facility. In addition to 28 standard colors, custom colors and logos are available to add even more excitement to your gym.

EVERLAST energizes your gym without breaking your budget. It's super durable, which means it can withstand the punishment of weights and heavy foot traffic. This makes it outlast most traditional fitness flooring options, resulting in less replacement costs saving you time and money.

Roll and Tile Benefits

- Most color choices in the industry
- Qualifies for LEED® credits
- Sound and shock absorbent
- Easy installation and maintenance
- Slip resistant wet or dry
- Seamless appearance (rolls)
- Extremely durable
